PARTNERSHIP OVERVIEW

Help build what's next.

Support student-led robotics in Greater Sudbury.

TEAM

EDIT Saffron · FTC 22310

BASED AT

Lo-Ellen Park Secondary School

HOME

Greater Sudbury, Ontario

What we do

We design, build, program, and compete in FIRST Tech Challenge. Our students work across five disciplines: Design, Automation, Reach, Trades, and Strategy.

Each season brings a new challenge and an opportunity to practise engineering, communication, and teamwork.

Ways to help

- **Season support** — discuss help with robot components, registration, and team travel.
 - **Parts & services** — materials, fabrication, tools, or access to equipment.
 - **Knowledge & time** — technical advice, mentorship, or a workshop.
-

Let's find the right fit.

Tell us what you have in mind. We'll discuss current needs, a useful contribution, and recognition together.
